

GE Evendale Walking Trails

GE Fitness Center Outdoor Track

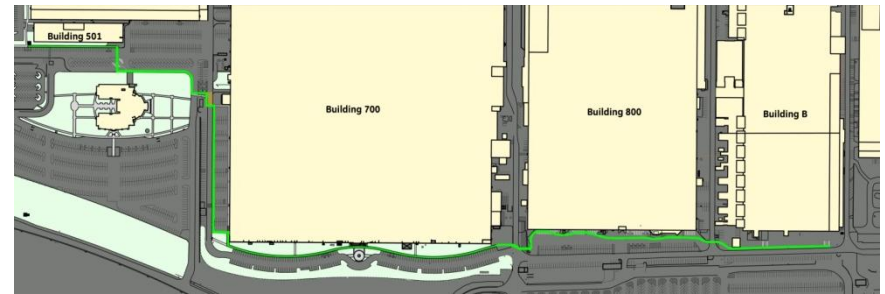

The GE Fitness Center course is a great 0.5 mile track made of a rubberized material. A drinking fountain is located on the north side of the building.

Outdoor Evendale Track

Building 501 to Building B course is a 0.8 mile track that outlines a safe trail on the western side of the campus viewing new greenspace.

The Bldg. 200 Parking Lot course is a 0.33 mile course that begins at Gate 58. Perfect for those quick, “get away from my desk” walks on a beautiful day.

The outdoor course at the far south end of the plant is located where Bldg. D use to be. This is a 0.5 mile paved track that circles a large grassy field.

Indoor North Trail

The .8 mile North Trail begins at the west entrance into Bldg. 200 basement. This loop is perfect for those extra busy days when you don't have time for a full half hour.
